2021 JUROR/JUDGE

Ben Billingsley

Benjamin Billingsley is a painter and printmaker living in Wilmington, North Carolina. He holds an MFA from UNCGreensboro (1995). He has exhibited work in the Southeastern United States as well as in Latvia, Estonia, Russia and Japan. He has been a regular participant in the large-scale woodblock printing events held in Carolina Beach, at UNCW and at ECU since 2010. In summer 2015, Ben was co-director of a printmaking symposium at Pedvale Open-Air Art Museum in Sabile, Latvia; participants carved and printed large-scale 1 meter by 2 meter woodblocks using a steamroller. This was Ben's second residency at Pedvale. Ben has taught studio art and art history at Cape Fear Community College full-time since 2001. In 2006 Benjamin Billingsley received the

Marilyn Goodman Anderson Endowed Award for Excellence in Teaching. He teaches a variety of studio courses (including drawing and printmaking) as well as various art history courses. In addition, Ben has lectured regularly for UNCW's Osher Lifelong Learning Institute and the Cameron Art Museum. In 2015 was the guest curator for the CAM exhibition "The Eye Learns: Modernist Prints from the Belden Collection." He participated in the No Boundaries Art Colony on Bald Head Island in Nov 2016. Recent

professional activities include serving as a visiting artist in printmaking at East Carolina University (Feb. 2019), participating in a three-person exhibition "Carved / Painted / Printed" at ACME in Wilmington (July/Aug. 2019), installing an outdoor print/earthworks/sculptural piece at SELU conservancy in Radford, VA as part of the Tristate Sculptors' Conference (Oct. 2019), and creating a collaborative printed/painted mural with students from DREAMS of Wilmington for the Bald Head Island Conservancy as part of No Boundaries 2019.

All jurying and judging is done anonymously.

IMAGE GUIDELINES

By now you realize that you must upload your images for the two pieces of art you wish to be considered for the show. You do this during registration. This is so the Judge can view the pieces and select those to be included.

RESIZING IMAGES

Why resize? Digital photos are made up of pixels—small "pieces" of information that together produce the complete picture. Imagine a rectangle consisting of a series of tiny blocks or tiles laid side by side row by row. Like in a jigsaw puzzle, each tile contains a tiny piece of the complete image. In digital photography the more of these puzzle pieces (pixels) are used to produce the image, the higher the quality of the image.

A modern digital camera including your phone camera may produce an image that consists of 12 million pixels. This would be called a 12-megapixel camera, capable of producing a rectangular image this is 4000 pixels wide by 3000 pixels high. Storing this image on your computer might require a file that is about 3 megabytes (3

million bytes or MB) in size. Way too large to send by email or to upload to many websites. So as you can imagine, you need to take your photograph and then make the size smaller.

IMAGE RULES

One image per 2D piece (total of 2 images) and 2 images per 3D piece (total of 4 images)

Submit as a JPEG

Maximum of 2400 pixels on the largest side of the image.

Maximum file size is 2MB.

Before being uploaded, name the image file as follows:

[lastname,first initial,second initial, image number.jpg]

2D example: brownab1.jpg (entry 1) and brownab2.jpg (entry 2)

3D example: brownab1a.jpg and brownab1b.jpg (2 views of the same work)

brownab2a.jpg and brownab2b.jpg (2 views of the same work)

RESIZING AND NAMING YOUR IMAGE

Whether you use a PC or a Mac, there is built-in software you can use for this.

For a Mac

Use Preview. In Preview click on file then open. Locate the photo you wish to use. Then go to Tools then Adjust size. Set the largest dimension to 2400 pixels. The other one will change proportionally to keep from distorting the image.

To name your photo: at the top center above your photo is a drop-down box. Enter your last name, first initial, and the image number. In the "Where" box enter where you are storing the image on your computer. You will need to remember where you placed your file on your computer order to upload it upon registration.

Voila! Named and resized. In the bottom of the image dimensions box, the resulting size is listed. It must be less than 2MB. If it is too large simply reduce the height or width again until it is less than 2 MB.

For a PC: In your photos, click on your image. Then go to Properties and then go to Resize. Then resize your image. Go to Rename to name your image. _____
